U.S. ENVIRONMENTAL PROTECTION AGENCY  
**NOTIFICATION OF HAZARDOUS WASTE ACTIVITY**

**INSTRUCTIONS:** If you received a preprinted label, affix it in the space at left. If any of the information on the label is incorrect, draw a line through it and supply the correct information in the appropriate section below. If the label is complete and correct, leave items I, II, and III below blank. If you did not receive a preprinted label, complete all items. "Installation" means a single site where hazardous waste is generated, treated, stored and/or disposed of, or a transporter's principal place of business. Please refer to the INSTRUCTIONS FOR FILING NOTIFICATION before completing this form. The information requested herein is required by law (Section 3010 of the Resource Conservation and Recovery Act).

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

REGION III

6TH AND WALNUT STREETS  
PHILADELPHIA, PENNSYLVANIA 19106

August 28, 1981

Mr. C. H. Dreyer  
International Signal and Control Corporation  
3050 Hempland Road  
Lancaster, PA 17601

Dear Mr. Dreyer:

This is to acknowledge that the Environmental Protection Agency has completed processing the information submitted in your Part A Hazardous Waste Permit Application. It is the Agency's opinion, based on the assumption that the information submitted is complete and accurate, you as an owner or operator of a hazardous waste management facility have met the requirements of Section 3005(e) of the Resource Conservation and Recovery Act (RCRA) for Interim Status. EPA has not verified the information submitted. If it is determined that the information is incomplete or inaccurate, you may be asked to provide additional information or in certain circumstances it may be determined that you do not qualify for interim status. In addition, this notice does not preclude a citizen from taking legal action under the provisions of Section 7002 of RCRA.

A facility not meeting the requirements for interim status under Section 3005 of RCRA may be required to close until such time as a hazardous waste permit is issued. Interim status may also be terminated, according to procedures in 40 CFR Part 124, if the owner or operator fails to furnish additional information which EPA requests in order to process a permit application.

As an owner or operator of a hazardous waste management facility, you are required to comply with the interim status standards as prescribed in 40 CFR Parts 122 and 265 or with State rules and regulations in those States which have been authorized under Section 3006 of RCRA. In addition, you are reminded that operating under interim status does not relieve you from the need to comply with all applicable State and local requirements.

The enclosure to this letter identifies the processes your facility may use, their design capacities, and types of waste your facility may accept during interim status. This information was obtained from the Part A Permit Application. If you wish to handle new wastes, change processes, increase the design capacity of existing processes, or change ownership or operational control of the facility, you may do so only as provided in 40 CFR Sections 122.22 and 122.23.

CONDITIONS OF OPERATION DURING  
INTERIM STATUS

Date Prepared: August 28, 1981

The information shown below is based solely on the information that the owner and operator of this facility submitted in Part A of the Hazardous Waste Permit Application. This is not a determination by EPA that this facility is an environmentally acceptable facility for treating, storing or disposing of the hazardous wastes listed below.

1. Facility name, location, and EPA Identification Number.

Name: International Signal and Control Corporation

Location: 3050 Hempland Road  
Lancaster, PA 17601

EPA I.D. No.: PAD 05 413 9506

II. EPA considers the following to be the owner or operator of the facility and therefore the person(s) who must comply with the requirements set forth in 40 CFR Parts 122 and 265.

Owner's Name: Mr. Edward S. Hoover

Operator's Name: Mr. C. H. Dreyer, Vice President

III. During the period of interim status, the facility may use only the following processes for treating, storing or disposing of hazardous waste, up to the design capacities that are indicated.

<u>PROCESS</u>	<u>DESIGN CAPACITY</u>
S01	2750 Gals.
_____	_____
_____	_____
_____	_____
_____	_____

IV. During the period of interim status, the facility may handle only the hazardous wastes with the following EPA Hazardous Waste Numbers, and/or solid waste exhibiting hazardous characteristics with the following EPA Hazardous Waste Numbers.

<u>F001</u>	<u>F002</u>	<u>F003</u>	<u>D008</u>	<u>U140</u>

Re: Acknowledgment of Application for  
a Hazardous Waste Permit

This is to acknowledge that the Environmental Protection Agency has received: (1) A notification pursuant to Section 3010 of the Resource Conservation and Recovery Act for the facility located at the address shown above; and (2) Part A of a Hazardous Waste Permit Application for that facility, including a signed statement that the operation of the facility, or its construction, began prior to November 19, 1980. While the information provided by these submissions has not been fully reviewed for completeness or accuracy, EPA will accept this information as an initial qualification for interim status pursuant to Section 3005 of the Act. If after further review of this information, EPA determines that the owner or operator did not fulfill all the requirements for interim status, EPA may treat the owner or operator as not having qualified for interim status pursuant to that section and will advise the owner or operator of that determination. Facility owners and operators with interim status must comply with the standards set forth at 40 CFR Part 265 until a permit is issued. Interim status may be terminated if the owner or operator fails to furnish any additional information requested by EPA in order to process a permit application.

ACKNOWLEDGEMENT OF NOTIFICATION  
OF HAZARDOUS WASTE ACTIVITY  
(VERIFICATION)

This is to acknowledge that you have filed a Notification of Hazardous Waste Activity for the installation located at the address shown in the box below to comply with Section 3010 of the Resource Conservation and Recovery Act (RCRA). Your EPA Identification Number for that installation appears in the box below. The EPA Identification Number must be included on all shipping manifests for transporting hazardous wastes; on all Annual Reports that generators of hazardous waste, and owners and operators of hazardous waste treatment, storage and disposal facilities must file with EPA; on all applications for a Federal Hazardous Waste Permit; and other hazardous waste management reports and documents required under Subtitle C of RCRA.

Philadelphia, PA 19107

Re: TSD de-listing, 3050 Hempland Road, former Ferranti  
Technologies facility, identification number  
PAD054139506

Dear Mrs. Powell:

It has been several weeks since we discussed the removal of the TSD status on the above facility. This is an urgent request for a written response and documentation from the EPA on the TSD de-listing of this facility.

As we discussed, the facility was improperly listed as a TSD site by our former tenant, Ferranti Technologies, Inc. Mr. Mike Herman, Facility Supervisor for Ferranti, had the property inspected by the Pennsylvania Department of Environmental Resources on March 4, 1993, which cleared the property for de-listing and verified that there are no hazardous materials on site. Please see both Mr. Herman's letter of March 23, 1993, and the Pennsylvania Department of Environmental Resources report which are enclosed.

We are planning to sell this property in the near future and it is imperative that it is de-listed prior to the sale.

Please send verification of the TSD de-listing to my attention. If you have any questions, call me at (717) 291-2284. Thank you for your cooperation.

Sincerely,

Anthony F. Amorosi  
Commercial Asset Manager

Ref: Department of Environmental Resources inspection report  
dated March 4, 1993

Dear Mrs. Powell;

1. In response to our phone conversation on 12-14-92, I am officially notifying you that as of February 28, 1993, the building located at 3050 Hempland Road, Lancaster, Pa., Identification number (PAD054139506) will no longer be Ferranti Technologies' responsibility. We are terminating the lease with the owners.
2. As indicated by DER's inspection report dated March 4, 1993, see attached. The building and grounds are clear of all hazardous chemicals, and from the afore mentioned date, this facility will no longer be operated as a TSD Facility. We request that you terminate the TSD status as well as the identification number (PAD054139506).
3. We request that EPA provide us, in writing, proof that the TSD status as been terminated for the site.

Respectfully

Mike Herman  
Facility Supervisor

## Inspection Report Comments

Date of Inspection 03-04-93 Identification Number PAD054139506  
Company/Facility/Site Name Ferranti Technologies, Inc.

Randy Weiser and Chet Zeller from the Department conducted an inspection with Mike Herman, facilities manager, at the Ferranti facility at 3050 Hempland Rd. A previous inspection conducted 9-1-92 had left two items in question which need to be taken of before the U.S.E.P.A. will take Ferranti Technologies off of its <sup>BN</sup> generator list. Today's inspection was conducted at Ferranti's request because they are no longer in the building (the lease ran out at the end of February, 1993).

All areas inspected were empty. No waste was observed on site. The drums questioned during the 9-1-92 inspection as to their whereabouts were product - Genolu and PE-18AS (toluene diisocyanate). These drums were transferred to Ferranti's facility at 3725 Electronics Way, according to Mike Herman. A letter dated 12-17-92 to Mr. Mitzel of the Department explains how the material was taken care of.

The two magazines were inspected 9-2-92, found to contain no explosives and moved 2-28-93 to 3725 Electronics Way when the building was vacated. A 3-3-93 letter to the Department outlines this as well.

This facility does not generate hazardous waste and should submit a request to U.S.E.P.A. for removal of disposal I.D. Number.

In the "Requirement" Section of this inspection report, each listed inspection item may provide only a brief version of its corresponding obligation as described in the body of the regulations. Please use the Chapter citations listed on this inspection report as a reference to obtain a detailed description of compliance requirements.

This inspection report is official notification that a representative of the Department of Environmental Resources, Bureau of Waste Management, inspected the above installation. The findings of this inspection are shown in this report. This inspection report shall serve a formal notification of any violations which were observed during the inspection. Violations may also be discovered upon examination of the results of laboratory analyses and review of Department records. Additional notification may be forthcoming, concerning any violations indicated herein and listing any additional violations.

This report does not constitute an order or other appealable action of the Department. Nothing contained herein shall be deemed to grant or imply immunity from legal action for any violation noted herein.

Signature by the person interviewed does not necessarily imply concurrence with the findings on this report, but does acknowledge that the person was shown the report or that a copy was left with the person.

ACKNOWLEDGEMENT OF NOTIFICATION  
OF REGULATED WASTE ACTIVITY  
(VERIFICATION)

This is to acknowledge that you have filed a Notification of Regulated Waste Activity for the installation located at the address shown in the box below to comply with Section 3010 of the Resource Conservation and Recovery Act (RCRA). Your EPA Identification Number for that installation appears in the box below. The EPA Identification Number must be included on all shipping manifests for transporting hazardous wastes; on all Annual Reports that generators of hazardous waste, and owners and operators of hazardous waste treatment, storage and disposal facilities must file with EPA; on all applications for a Federal Hazardous Waste Permit; and other hazardous waste management reports and documents required under Subtitle C of RCRA.

Re: Routine hazardous waste determination evaluation.

Subject: Hazardous waste determination for heavy metals in waste paint overspray at  
Emtrol, Inc.

Dear Mr. Grabusky:

I am enclosing information to support the statement that there are no heavy metals in the  
paints used at Emtrol, Inc. during the years 1996 and 1997 (to date).

Enclosed are the following attachments:

1. Spray Painting Log - for the year 1996
2. Spray Painting Log - for the year 1997 (to 7/22/97)
3. MSDS's
  - a. Plythane 890 (M.A. Bruder & Sons, Inc.)
  - b. Ply-mastic (M.A. Bruder & Sons, Inc.)
  - c. Rust-o-lastic (M.A. Bruder & Sons, Inc.)
  - d. Imron 326 - Y - 67637 (DuPont Co)
  - e. Imron VGY 511 (DuPont Co)
  - f. Steel It 4907 - A (Stainless Steel Coatings, Inc.)
  - g. Steel It 4907 - B (Stainless Steel Coatings, Inc.)
  - h. DP48 (PPG Industries, Inc.)
  - i. DP401 (PPG Industries, Inc.)

A review of items 1. and 2. shows what paint we have been using during this time period.  
Item 3 shows that the paint we have been using contains no heavy metals.

I have calculated that we sprayed approximately 66.5 gallons of paint in 1996 and 23 gallons of paint in 1997 (to date), for your information.

If any further information or assistance is required, please do not hesitate to contact me at (717) 397-2531.

Very Truly Yours,
